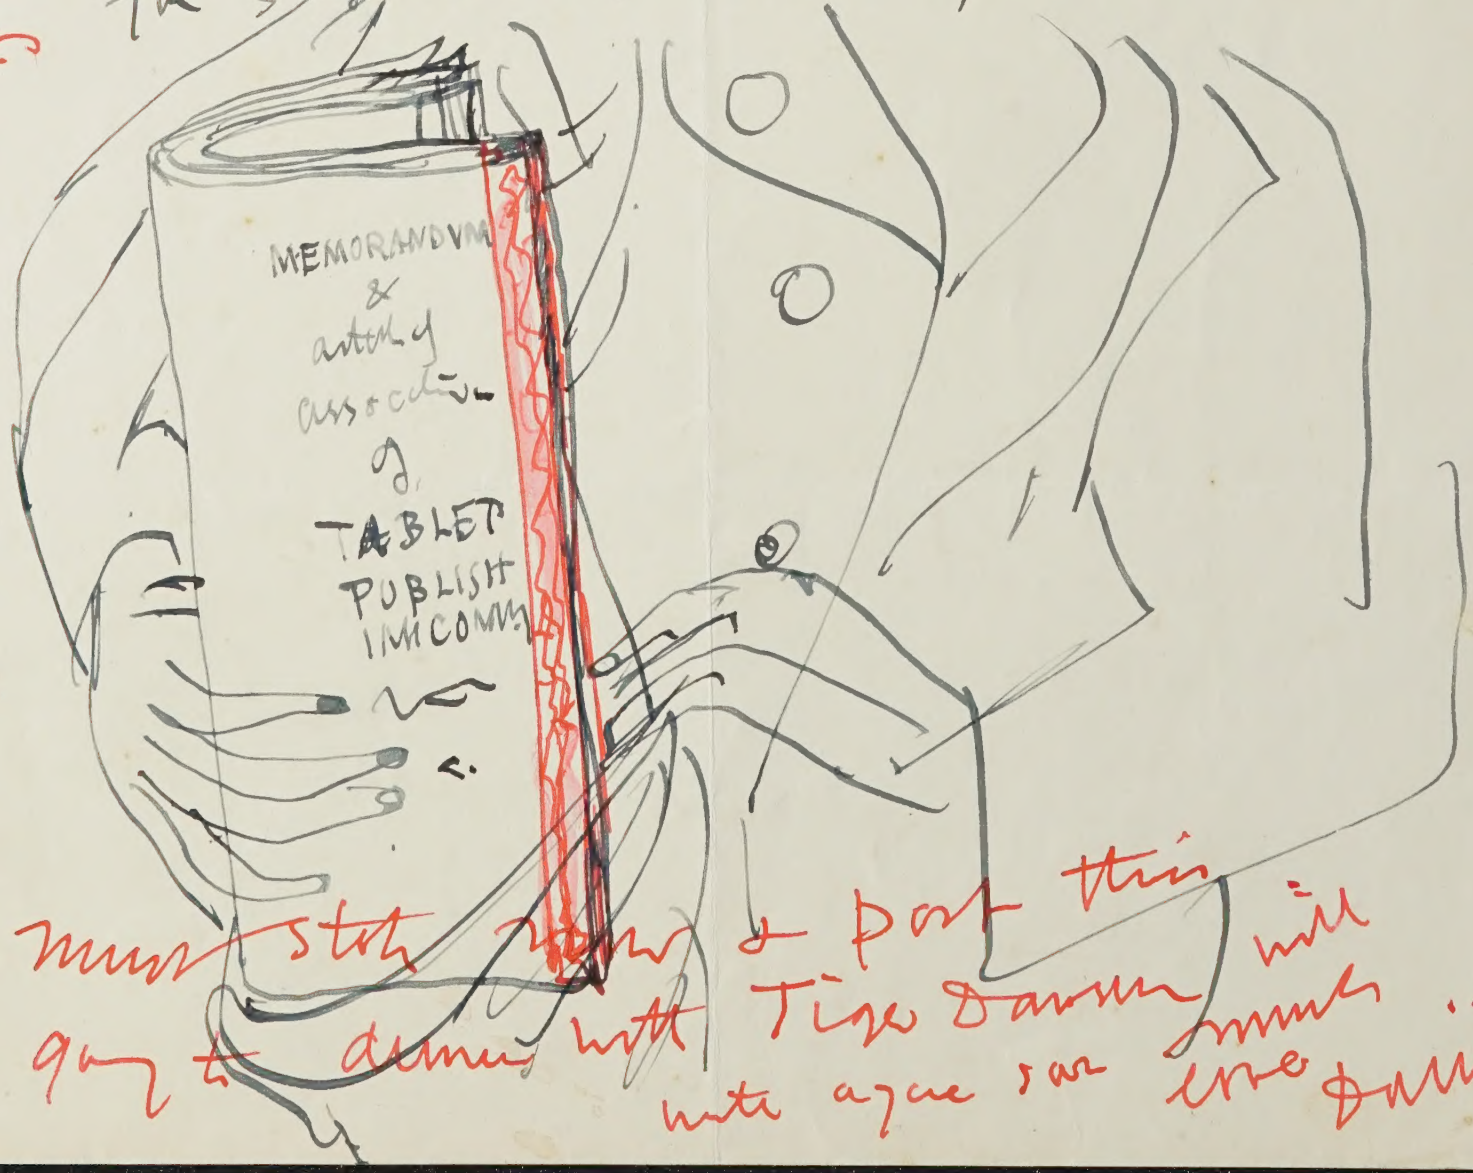
Dearest Rene not a real letter as
to thank you for letter & miss Roland.
Have it read it all yet had a lot
of odd things to do for some reason.—
I don't half like it where Olive says
She's been too busy fighting to draw
his sword.— Sent off Part VI & VII
to be typed today. & just got
thro' Part VI. Miss Vivian has
typed it clear. & done such
nice things - put in punctuation &
capital letters all are the peace. &
it all looks "right" — as we can
like with that. I have seen a
book that I would like it to look
like.. It is the new "Tablet publishing
Company" memorandum & articles of
association. printed by "Electric law press"
I wonder if Tom cried over a
copy?— I suppose it a secret
document! It's just right.— &
forsooth size with a pink greyish
cover stiffened & back with red. buckram.
& I think, most beautifully printed.
utterly right & satisfactory — exactly
as a a bit of Gothic script & tell
on Tottle page.. It comes be

God I do like the Frogs
Have S[illegible] with nice Jenny —
Have a nice peace

No news from Prudence yet — I wonder if Cyril has a Sharman Grant.

hearing it parenthesis ends look like that. I somehow – (I think you will be very angry when you see it) – it reminded me of the look of some of your printing. Anyway I think you will see what I mean & why I like it. Christ! what annoyed old Dick de-la-M. think of it. – he named say what a nasty book – where is the artistry in this book I am not aware of it. anyth ni thing else it is that on the back side of the cover the Title etc is printed close up to the edge so that when you fold the whole book to put it into your nice overcoat pocket you still have the Title – you know



must stop now & post this
